

SCHOOL BOARD POLICY DEVELOPMENT

It is the intent of the Board to develop policies and put them in writing so they may serve as guidelines for its own operation and the successful and efficient functioning of the schools.

A careful and orderly process will be used in examining policy proposals prior to any action being taken by the Board. The Board will take action after hearing the recommendations of the board policy review committee, superintendent and the viewpoints of persons and groups affected by the policy. Board policies will be reviewed periodically and revised if necessary to address changes in needs, conditions, purposes, and objectives of the school district.

The formal adoption of policies will be recorded in the minutes of the Board of Trustees' meetings. Only those written statements that have been adopted will be regarded as official policy of the Board.
