

BUILDING AND GROUNDS MAINTENANCE

The District shall maintain buildings, grounds, and equipment by a continuous program of repair, reconditioning, renovating, and new construction. District master planning of facilities shall be conducted in conjunction with the planning and funding of the Wyoming School Facilities Commission. All buildings, grounds, and equipment shall be maintained for the educational and extra-curricular programs of the schools and district. The Parent Teacher Organizations (PTOs) and community may participate in the beautification of school grounds as deemed appropriate and approved by the facilities director.

BUILDING AND GROUNDS RECORDS AND REPORTS

The facilities director will maintain an electronic file and/or hard copy of the current inspection report from the City of Sheridan and Wyoming State Fire Marshal's office, as applicable, certifying that buildings meet minimum standards of safety.

Other reports/plans on file will be kept by the district facilities director as required by Federal and State governmental agencies.
