

BUILDING AND GROUNDS MAINTENANCE

The District shall maintain buildings, grounds, and equipment by a continuous program of repair, reconditioning, renovating, and new construction. District master planning of facilities shall be conducted in conjunction with the planning and funding of the Wyoming State Construction Department. All buildings, grounds, and equipment shall be maintained for the educational and extra-curricular programs of the District. The Parent Teacher Organizations (PTOs) and community may participate in the beautification of school grounds as deemed appropriate and approved by the facilities director.

BUILDING AND GROUNDS RECORDS AND REPORTS

The facilities director shall maintain an electronic file and/or hard copy of reports from the City of Sheridan and the Wyoming State Fire Marshal's office, as applicable, certifying that buildings meet minimum safety standards.

Other reports/plans on file will be kept by the district facilities director as required by Federal and State governmental agencies.
