

**CONDUCT ON SCHOOL BUSES**

Students receiving transportation on a school bus are required to demonstrate good behavior at all times and must adhere to all school district policies and procedures. The School District has implemented rules and guidelines with regard to transportation on school buses. Parents and students must agree to comply with all policies, rules, and guidelines before a student will be allowed to ride on a school bus through the online registration or other appropriate forms.

School District buses may be equipped with video and/or audio recording devices to record the conduct and verbal communications of students riding on school buses. A student's conduct and verbal communications may be recorded while on a school district bus or at a bus stop. As a condition to being allowed to ride on a school bus, parents and students agree that a student does not have an expectation of privacy with respect to conduct and verbal communications on the bus. School District personnel may view the video and audio recordings of students riding on school buses at any time for any reason. Students may be disciplined for misconduct that is shown on the video and/or audio recordings. Video and audio recordings of students may be shared with parents or other interested parties in situations relating to student conduct if determined appropriate by the superintendent or his/her designee. Video and audio recordings may be shared with law enforcement and/or other governmental agencies as deemed appropriate by the Superintendent or his/her designee.
