

DETENTION OF STUDENTS

The school principal, teacher or designee may detain a student for disciplinary reasons before, during or after the scheduled school day including recess or lunch or other scheduled non-class time.

In the case of students who ride a bus and are assigned detention before or after school hours, parents/guardians must make arrangements for the student's transportation to home or to the school. Twenty-four (24) hour notice for students who ride a bus will be given so that the parents/guardians may arrange transportation.

Students shall be supervised during their detention. Their supervision must be provided, or arranged for, by the staff member who detains them.

Detention is to be limited to a maximum of 60 minutes per day unless the staff member has made arrangements for a longer period with the parents and administration.

Parents will be notified if their child is to be detained.
