

STUDENT HEALTH SERVICES

Health Records

Health records for each student shall be maintained by the school district nursing staff in the district student information system for each student.

Athletic Physical Examinations

Students who desire to participate in the athletic programs offered by the school district in its secondary schools shall be required to submit a physical from a licensed health care provider utilizing such forms as are approved by the school district. The physical shall be conducted no earlier than May 1 prior to the school year in which the student will be participating in the athletic program. A new physical will be required for each school year.

Annual Screening Programs

Vision screening will be planned and administered by nursing personnel for selected grades as determined by the school district.

Hearing screening will be planned and administered by nursing personnel for selected grades as determined by the school district.

Communicable Diseases

Students showing symptoms of a communicable disease, infectious condition, illness or disability of a serious nature will be referred to the school nurse.

Special Health Examinations

The school district may request that students obtain a health examination by a licensed health care provider and provide evidence of such in situations where there is a concern regarding the student's health.
